

Covid-19 Policy

Traffic Light System: Red, Phase 2

As at 17 February 2022

1. *Vaccination status*

- Our club requires that all playing members must be at least double vaccinated, and have a Vaccine Pass
- If you have not already had your Vaccine Pass recorded at the Club, then please bring it along and show it to our Health and Safety Officer, our President, or the Club Director (as at February 2022 Di Lester, Kevin Stacey or Margaret Robertson respectively). Alternatively, it can be emailed to Di at Dianne@mccabeandcompany.co.nz. This will enable it to be recorded on our system.
- If you have a medical exemption issued by the Ministry of Health, then this will also need to be sighted and scanned.

2. *Mask wearing*

- Mask wearing is mandatory

3. *Signing in*

- We request all players sign in by scanning the QR code via the Covid app. If that isn't possible, please fill in the Covid register as you enter

4. *Playing conditions*

- Please do not come to the Club if you, or anyone in your household are unwell (particularly having cold or flu-like symptoms) or are awaiting the results of a Covid-19 test.
- Please maintain good hygiene standards, including hand washing and sanitising.

5. *Supper*

Supper will not be served, but the kitchen is available for water/cold drinks. Disposable cups will be left out - please put them in the rubbish bin afterwards. If using a cup or glass, please wash it after use and put it back on the shelf.

Please also be conscious of and considerate to those who might not be comfortable with your drinking around them (including from water bottles).

6. *Visitors*

- Visitors are welcome, provided that they can show a current and valid Vaccine Pass, and wear a mask. Their passes must be shown to any of Di Lester, Kevin Stacey or Margaret Robertson, or in their absence, a committee member.
